Although you're armed with state-of-the-art technology and the most sophisticated on-board computer in the Star Fleet, enemy fire from the Scyon battle cruisers will reduce your capabilities. You can return to a starbase for repairs, but the Scyons may attack and impede your starbase.

As you wander the perilous streets of the city, you must decide how you will succeed. Beg or borrow? Get an education? Pursue a career? Make investments? Only the cleverest and most determined player can succeed.
